

HICKORY

Age Level	High School
Academic Learning Profile	A Hickory student learns most effectively in a pair, but s/he can learn in small and large groups as well. Students are on modified diplomas.
Regulation Skills	A Hickory student benefits from positive reinforcement to engage and remain motivated during customized work sessions. Hickory students learn and apply skills in the context of traditional instruction, meaningful events, and projects.
Communication Style	Hickory students use varied modes of communication: AAC, expressive verbal, gestures, sign, and written
Curriculum & Core Content	<ul style="list-style-type: none"> ● Wide range of grade-level academic curriculum aligned with Oregon State Standards—and taught primarily in context ● Sensory activities and social engagement opportunities ● Personalized programs created for each student to teach academics, social and emotional health, social skills, community participation, and daily living skills ● Elective subjects include Adapted Physical Education, art, Digital Citizenship, Financial Literacy, and music ● Daily living skills practice includes cooking, hygiene, laundry, wellness, and much more ● Community Based Instruction (CBI) - Weekly outings designed to generalize skills learned in the classroom (applying safety skills, creating/utilizing shopping lists, purchasing items with limited support)

Additional Programs	Augmentative and Alternative Communication (AAC), Field Trips, Recreation, Social Group, Summer Camp, Transition, Work Experience
